#### OPERATIONS

Responded to 264 calls: 13 Fires, 102 EMS, 28 Service, 96 Good Intent, 23 False Alarms

- Units responded to reports of a structure fire 4300 block of North Buckhead in the City of Atlanta. On arrival, City of Atlanta personnel requested water supply from the nearest hydrant. SSFD crew pulled the five-inch hose from their engine to the hydrant and supplied water. SSFD personnel were directed to attack interior fire to the kitchen, stretching one three-quarter inch hose. After extinguishing the kitchen fire, crewmembers advanced to the attic. SSFD personnel checked the attic for extension and found none.
- Units responded to a commercial alarm, then radio upgraded to a structure fire in the 9000 block of Roswell Road. Upon arrival, crewmembers found a commercial mid-rise with nothing showing. Property Management advised crew of a fire on the first floor suite. Crew investigated and found the fire extinguished by sprinklers. Personnel checked for hot spots with none found.
- Units responded to a report of an extinguished fire involving a gas heater in the 7000 block of Roswell Road. No signs of smoke or fire were seen from the exterior of the two-story commercial building. Further investigation revealed a ceiling mounted space heater at the location that was installed too closely to a ceiling light. This eventually transferred enough heat to the light to melt the plastic housing and cover. Employees of the car lot saw the smoke and deployed an extinguisher on the heater prior to Sandy Springs Fire personnel arriving on scene. The electrical breaker for the room was tripped when the light fixture melted.

#### INSPECTIONS

- There were 131 inspections conducted with 21 violations cited.

#### EMERGENCY MANAGEMENT

- CORE (Community Organized Relief Effort) administered COVID testing in Sandy Springs for 106 residents.
