TRANSPORTATION/TRAFFIC

- The Georgia Smart Communities project with the Georgia Institute of Technology continues. The City of Sandy Springs, in partnership with the City of Dunwoody, MARTA, and Georgia Tech researchers, submitted a proposal in June 2020 for a grant to “Streamline Suburban Transit” to improve the transit experience for existing and future riders. The project will leverage existing infrastructure to test transit signal priority (TSP) technology using bus location data published through an application program interface (API) instead of communicating with a unit on board the bus. The results of this study will inform how TSP could be implemented in the City in the future. The Georgia Smart grant was announced in early August, and Sandy Springs was awarded a grant of \$75,000 from the Atlanta Regional Commission to undertake the project. The City’s match for the grant is \$18,750, for a total of \$93,750. The project is currently testing Transit Signal Priority operations on the MARTA Route 5 in the Hammond Drive and Roswell Road corridors. The project has funded two interns to work with City staff on the project, and the interns started work in May.
- The Transportation Department is working with neighbors in Whitner/Idlewood, Wyndham Hills, Huntcliff, Glenridge-Hammond, and Glen Errol on traffic calming initiatives. The City’s Adopted Traffic Calming policy is a neighbor-driven process to calm traffic on neighborhood streets. <http://www.sandyspringsga.gov/city-services/transportation-infrastructure/traffic-calming>
- The Traffic Department is continuing the engineering analysis and design for short-range improvements and long-range alternatives to address ongoing safety concerns at the Roswell Road/SR 9 at Abernathy Road intersection.
- The Traffic Management Center is upgrading back-up power systems for 30 signalized intersections throughout the spring. There may be brief, intermittent signal outages (i.e., signal in flash or signal dark) during construction. The project is 75% complete.
- The Traffic Department is undertaking a concept study at the Intersection of Mt. Vernon Highway and Long Island Drive under the Intersection Operations and Safety Program. Concept development is underway.
- The Traffic Management Center is upgrading Vehicle Approach Warning Flashers (VAWF) at the following locations: Dunwoody Club Drive and Chaparral Pl, High Point Road and Bransford Road, Lake Forrest Drive and Burdette Road, Powers Ferry Road and Carol Lane, on Carpenter Drive, Riverside Drive and Wildercliff Drive, and Riverside Drive and Pointe Ridge Drive.
