DETAILED PROCESS & INSTRUCTIONS

Legend: $\hfill\square$ and o: Action required by Applicant

	•: For information			
Before the Pre-Application Meeting:				
	Read this Application packet in its entirety.			
	Consult the Sandy Springs Development Code (available online at			
	https://library.municode.com/ga/sandy_springs/codes/development_code).			
	Fill out the Project Information Sheet of this Application packet and provide to Lead			
	Planner at or before Pre-Application meeting.			
	Prepare a plan to scale of the proposed project.			
	Obtain written permission from the property owner to pursue the project. If the property			
	is under contract, provide a copy of the contract at the Pre-Application Meeting.			
	Contact a Planner at pz@sandyspringsga.gov or (770) 730-5600 to schedule the Meeting.			
•	A stormwater concept plan and/or corresponding meeting may be required depending on			
	the scope of work of the particular project or request.			
Pre-Ap	pplication Meeting:			
	The Pre-Application Meeting must take place at least two (2) weeks but no more than			
	two (2) months before the Application filing date.			
Filing:				
	Contact the Lead Planner prior to filing.			
	Complete the Application packet and submit a complete Application to the CSS Portal.			
	Provide payment via CSS Portal (verify the amount with the Lead Planner beforehand);			
	see p. 11.			
•	Applications are due by 2:00 PM on the fourth (4 th) Tuesday of the month. Staff will			
	initiate review, ask for more information if needed (at which point the Application may			
	be placed on administrative hold), and send an Initiation Letter.			
Before	the Board of Appeals (BOA) Meeting:			
	Submit any revision to the Application at least thirty (30) days prior to a scheduled			
	Public Meeting or Public Hearing to allow time for proper revision by Staff and legal			
	advertisement.			
•	The Staff Report, including the recommendation, will be posted on the City website.			
•	Staff will publish a legal ad in the newspaper.			
	Order and post signage using Staff's sign template on the subject property (see p. 12) at			
	least fifteen (15) calendar days prior to the BOA Meeting before 8:30 AM. Send date-			
	stamped pictures of the signage once in place to the Lead Planner.			
	Mail written notice to property owners within 500' at least fifteen (15) calendar days			
	but not more than 45 calendar days prior to the BOA Meeting; use Staff's mailing			
	template. Obtain a Certificate of Mailing from the Post Office and keep for your records;			
	Applicant must produce a Certificate of Mailing upon request from Staff.			

Failure to complete any of these requirements may result in an administrative hold, and the case will be rescheduled to a future filing cycle.

AUTHORIZATION FORM – PART I

A- The property owner must fill out the following section and have it notarized. If a property has multiple owners, each owner must separately fill out a copy of the Authorization Form.

Owner states under oath that he/she is the owner of the property described in the attached legal

description, which is made part of this Application.				
Owner's name:	Sworn and subscribed before me this			
Address:				
	th day of 20			
City, State, Zip Code:	Notary public:			
Email address:	Seal:			
Phone number:				
Owner's signature:

AUTHORIZATION FORM – PART II

C- If an agent or attorney will represent the owner and/or the Applicant: Fill out the following section and have it notarized.

Agent's name:	
Company:	Sworn and subscribed before me this
Address:	
	th day of 20
City, State, Zip Code:	Notary public:
Email address:	Seal:
Phone number:	
Agent's signature:	
Applicant's signature:	
	Commission expires:

ADDITIONAL REQUIREMENTS

Letter of Intent

Required for all cases

Address the following in detail, on a separate sheet:

- 1. Requested Stream Buffer Variance
- 2. Factual details about the proposal:
 - Number and size of buildings
 - Square footage of gross floor area of nonresidential uses
 - Type and number of residential units
 - Number of employees and customers, number of classrooms, hours of operation, etc.
- 3. Factual details about the site: shape, topography, slope, vegetation, soils, and other physical characteristics of the property
- 4. Mitigation and restoration strategy: phasing and timeline, construction methodology, equipment used, calculations, etc.
- 5. Alternative designs explored:
 - a. Provide details of alternative design(s) that could reduce the need for a Stream Buffer Variance
 - b. Explain why the alternatives were not selected

Stream Buffer Variance Analysis (Sec. 11.6.4.)

Required for **all** cases

Explain in detail, on a separate sheet, and for each Stream Buffer Variance requested how:

- a. The property's shape, topography or other physical conditions existing on December 12, 2005, prevent land development unless a Stream Buffer Variance is granted.
- b. Unusual circumstances when strict adherence to the minimal buffer and setback requirements would create an extreme hardship.

Notes:

• Stream Buffer Variances will not be considered when actions of any property owner of a given property after December 12, 2005, have created conditions of a hardship on that property.

At a minimum, a variance request must include the following information:

- A site map that includes locations of all state water, wetlands, boundaries, and other natural features, as determined by field survey;
- A description of the shape, size, topography, slope, soils, vegetation and other physical characteristics of the property;
- A detailed site plan that shows the locations of all existing and proposed structure and other
 impervious cover, the limits of all existing and proposed land disturbance, both inside and
 outside the buffer and setback. The exact area of the buffer and setback to be affected is
 accurately and clearly indicated;
- Documentation of unusual hardship should the buffer and setback be maintained;
- At least one alternative plan that does not include a buffer or setback intrusion, or an explanation of why such a site plan is not possible;
- A calculation of the total area and length, of the proposed intrusion
- A stormwater management site plan, if applicable; and
- Proposed mitigation, if any, for the intrusion. If no mitigation is proposed, the request must include an explanation of why none is being proposed.

The following factors will be considered by the BOA in determining whether to issue a Stream Buffer Variance:

- a. The shape, size, topography, slope, soils, vegetation and other physical characteristics of the property;
- b. The locations of all state waters, wetlands, floodplain boundaries and other natural features on the property, including along property boundaries, as determined by field survey;
- c. The location and extent of the proposed buffer or setback intrusion;
- d. Whether alternative designs are possible which require less intrusion or no intrusion;
- e. The long-term and water quality impacts of the proposed Variance; and
- f. Whether issuance of the Stream Buffer Variance is at least as protective of natural resources and the environment.

Chattahoochee River Corridor Certificate

Required for properties located within the Chattahoochee River Corridor (within 2,000' of the Chattahoochee River). Contact Helen Owens, Zoning Administrator at (770) 206-1358 or howens@sandyspringsga.gov. Also refer to section 9.2.5.B. of the Development Code.

Stormwater Management Plan

Contact Jon Amsberry, City Engineer, at (770) 206-1514 or jamsberry@sandyspringsga.gov Also refer to section 9.6.8. Stormwater Management Plan.

Georgia Environmental Protection Division (EPD) Approval Required for Stream Buffer Variance petitions to encroach into the 25' State undisturbed natural vegetative buffer ☐ Variance Application ☐ Approval letter from EPD **Survey and Site Plan** Required for all cases in digital format (PDF) Provide a survey and site plan to scale The Survey and Site Plan must include, at a minimum, the following: ☐ Legal description (metes and bounds; should also be submitted as a separate document) ☐ Key and/or legend, site location map with **North arrow**, and scale ☐ Boundary survey of the subject property, which includes dimensions along property lines that match the metes and bounds of the subject property's written legal description, and clearly indicate the point of beginning ☐ Acreage of the subject property ☐ Location of the subject property's land lot lines and identification of land lots ☐ Current zoning district of the subject and adjacent properties ☐ Layout and minimum lot size of proposed single unit detached residential lots ☐ Topography on the subject and adjacent properties within 200' to assess runoff effects ☐ Location of overhead and underground electrical and pipeline transmission/conveyance lines ☐ Building setback lines and build-to zones, transitions, buffers, etc.
